# RESTORING CALIFORNIA

- ASSEMBLY DISTRICT 14 COMMUNITY FORUM -

There's no doubt about it—strong public investment made California the mecca of agriculture, entertainment, science, medicine and high-tech, but **reduced investment in California threatens our future.**

On **Thursday, Aug. 9**, Assemblymember **Nancy Skinner** and UC Berkeley labor economist **Dr. Sylvia A. Allegretto** will present the dire impacts of reduced investment on people and our public resources.

- How does reduced investment impact **job creation, a skilled workforce and a rebounding economy?**
- Why are struggling middle and lower income families facing greater burdens?
- What can **we** do to ensure everyone pays their **fair share** to restore California's shared investments including public schools, public colleges and public safety?
